

# Sadeq Yaqobi

FRONTEND DEVELOPER

## ABOUT ME

As a frontend developer, I have good technical knowledge in HTML, CSS, JavaScript and frameworks like Bootstrap. In addition to my technical knowledge, I also bring excellent problem-solving skills, attention to detail, effective communication skills, and a passion for constantly learning and keeping up with the latest industry trends. My ability to quickly research and adapt new technologies allows me to deliver innovative and efficient solutions.

## EDUCATIONAL EXPERIENCE

During my educational career I have acquired:

- Development of JavaScript skills through challenging projects.
- Exploration of modern frameworks such as React and Vue.js.
- Acquiring knowledge of WordPress, including theme customization and plugin development.
- Participate in educational challenges and active learning over 180 days.
- Conducting exercises on responsive web design
- Demonstrating a proactive approach to continuous improvement.

During this time, I tackled and completed 14 educational projects, all of which you can find on GitHub.
